SPI SINGLE-DEVICE EQUIPMENT LOG

Baseline, Readings & Control Checks

Use this sheet when one device is being monitored in detail during an investigation session.

Record baseline behaviour, changes and possible ordinary influences before interpreting the reading.

1 INVESTIGATION DETAILS

Venue / Location

Area / Room

Date

Session start

Session end

Investigator completing sheet

Others present

2 EQUIPMENT DETAILS

Device / equipment name

Make / model (if known)

Measurement / device type

- ☐ EMF ☐ Temperature ☐ Humidity ☐ Pressure ☐ Light ☐ Motion / vibration ☐ Trigger / proximity
☐ Audio-related ☐ Other

3 DEVICE POSITION

Exact placement / position

Approx. height from floor

Use

- ☐ Stationary ☐ Handheld

☐ Moved during session

4 BASELINE READING

Baseline taken?

- ☐ Yes ☐ No

Time

Initial reading

Unit

Approx. duration

Normal range observed

Known nearby sources that may affect the device

Examples: mains wiring, electrical equipment, phones/radios, heaters, metalwork, airflow, vibration or nearby movement.

5 CONTROL / REFERENCE CHECK

Was the device tested against a known stimulus or source before use?

- ☐ Yes ☐ No ☐ Not applicable

What was tested and what happened?

Field reminder

If a reading changes, note nearby movement, device handling and environmental changes before interpreting it.

SPI SINGLE-DEVICE EQUIPMENT LOG

Repeatable Reading & Change Log

Venue / Location	Area / Room	Date	Device / equipment

READING / CHANGE	Time	Reading / value	Unit
Change from baseline ☐ Increase ☐ Decrease ☐ Activation ☐ Intermittent ☐ Other			
What was happening at the time? 			
Possible ordinary influence ☐ Person moved nearby ☐ Device moved / touched ☐ Electrical source ☐ Phone / radio ☐ Airflow / environment ☐ Vibration / movement ☐ No obvious influence Repeated? ☐ Yes ☐ No ☐ Not tested Ref.			

READING / CHANGE	Time	Reading / value	Unit
Change from baseline ☐ Increase ☐ Decrease ☐ Activation ☐ Intermittent ☐ Other

SPI SINGLE-DEVICE EQUIPMENT LOG

Quick Reading Log

Use this page for fast routine logging when a full detailed entry is not needed.

If a reading becomes significant or needs context, record it on the detailed log page as well.

Time	Reading / value	Unit	Change / activation	Brief note
